CRITERIA FOR RECOGNITION OF RESEARCH EXPERIENCE

In its meeting on 24 February 2016, the Doctoral Commission agreed to follow the criteria established by the National Research Activity Assessment Commission (CNEAI) for its eleven fields.

The criteria which are in force at the time the application is presented will be applied to the applicants. These criteria, published in the BOE http://www.boe.es/boe/dias/2015/11/30/pdfs/BOE-A-2015-12970.pdf, can be consulted from the Doctorate website.

a) When requesting recognition of research experience, the candidate will note the branch of knowledge and the CNEAI field in which they should be assessed. The sub-field should also be given for Engineering and Architecture.

Then, the correlation between the branch of knowledge (on which the application will be assessed by the Doctoral Commission at the University) and the CNEAI fields:

Sciences:

Field 1 Mathematics & Physics Field 2 Chemistry Field 3: Cellular & Molecular Biology Field 5 Natural Sciences

Health Sciences:

Field 4: Biomedical Sciences

Engineering & Architecture:

Field 6: Engineering & Architecture

Three sub-fields:

6.1. Mechanical & Production Technology6.2. Computational & Electronic Engineering

6.3. Architecture, Civil Engineering, Construction & Urban Planning

Social & Legal Sciences:

Field 7: Political & Social Sciences of Behaviour & Education

Field 8 Economic & Business Sciences

Field 9: Law & Jurisprudence

Arts & Humanities

Field 10 History, Geography & Arts Field 11 Philosophy, Languages & Linguistics

- **b)** Where pertinent in bordering or cross-disciplinary subjects, the Doctoral Commission may request assessment by spokespersons from another field.
- c) The achievements presented for assessment may correspond to an entire academic or professional life. They need not correspond to six consecutive years, or to the six years preceding the application date.

These criteria, published in the BOE and typically updated on an annual basis, can be consulted from the Doctorate website.
